Symington (D., Mo.), called and reported that Symington said we could not delete his question concerning [REDACTED] from the galleys of Mr. Colby's confirmation hearings. Symington said we could change the answer, however. In response to my query, Miss Nelson saw no reason why we could not incorporate in the confirmation hearings material on Phoenix which Mr. Colby had supplied for the record in the 10 July budget hearing before the Intelligence Operations Subcommittee of Senate Armed Services Committee.

2. [REDACTED] - GLC) Received a call from Rich Gilmore, Staff Member, Senate Foreign Relations Subcommittee on Multinational Corporations. He said he is interested in our evaluations and assessments regarding European standards development. He made specific reference to the standardization of electronic components and mentioned a tripartite accord on this subject and the existence of an organization known as CENELEC. He said he was not interested in the differences of opinion between the US and European countries but was interested in the political and economic aspects of the situation. I told Gilmore I would look into this and be back in touch with him. Maurice Ernst, OER, is checking.
